This is a list of automobile engines developed and sold by the Suzuki Motor Corporation. Suzuki is unusual in never having made a pushrod automobile engine, and in having depended on two-strokes for longer than most. Their first four-stroke engine was the SOHC F8A, which appeared in 1977. Suzuki continued to offer a two-stroke engine in an automotive application for a considerably longer time ...

Ignition timing plays a critical role in the efficient operation of an engine. In order for the engine to properly burn fuel, the fuel must be ignited at the proper moment during the combustion cycle. If the ignition timing becomes out of synch, the fuel-and-air mixture will not be burned properly. This can result in ...
