Queen Elizabeth I - Siblings, Reign & Death - Biography

Elizabeth I - the last Tudor monarch - was born at Greenwich on 7 September 1533, the daughter of Henry VIII and his second wife, Anne Boleyn. Her early life was full of uncertainties, and her chances of succeeding to the throne seemed very slight once her half-brother Edward was born in 1537. She was then third in line behind her Roman Catholic half-sister, Princess Mary.

Elizabeth II - HISTORY

Reveals the deep roots of the UK's lack of resilience when COVID-19 hit and sets out an ambitious manifesto for change.

The story of Elizabeth I's inner circle and the crucial human relationships which lay at the heart of her personal and political life. A vivid and often dramatic account, offering a deeper insight into Elizabeth's emotional and political conduct, and challenging many popular myths about her.

Elizabeth I is arguably one of the greatest monarchs and women of English history. Against an uncertain political and religious backdrop of post-reformation Europe she ruled at the conception of social modernization, living in the shadow of the infamy of her parents reputations and striving to prove herself an equal to the monarchs who had gone before her. This book seeks to explore some of the key events of her life both before and after she ascended to the English throne in late 1558. By looking at the history of these selected events, as well as investigating the influence of various people in her life, this book sets out to explain Elizabeth 's decisions, both as a queen and as a woman. Amongst the events examined are the death of her mother, the role and fates of her subsequent stepmothers, the fate of Lady Jane Grey and the subsequent behavior and reign of her half sister Mary Tudor, along with the death of Amy Dudley, the return of Mary Queen of Scots to Scotland, the Papal Bull and the Spanish Amanda.

Important edition of central government records for Elizabeth I makes vital information available to historians.

Elizabeth II - HISTORY

One of England's most fascinating monarchs is brought to life in this hands-on study for young minds. Combining projects, pictures, and sidebars with an authoritative biography, children will develop an understanding of the Reformation, Shakespearean England, and how Elizabeth's 45-year reign set the stage for the English Renaissance and marshaled her country into a chief military power. Providing 21 activities, from singing a madrigal and growing a knot garden to creating a period costume--complete with a neck ruff and a cloak for the queen's court--readers will experience a sliver of life in the Elizabethan age. For those who wish to delve deeper, a time line, online resources, and a reading list are included to aid in further study.

NEW YORK TIMES BESTSELLER Perhaps the most influential sovereign England has ever known, Queen Elizabeth I remained an extremely private person throughout her reign, keeping her own counsel and sharing secrets with no one--not even her closest, most trusted advisers. Now, in this brilliantly researched, fascinating new book, acclaimed biographer Alison Weir shares provocative new interpretations and fresh insights on this enigmatic figure. Against a lavish backdrop of pageantry and passion, intrigue and war, Weir dispels the myths surrounding Elizabeth I and examines the contradictions of her character. Elizabeth I loved the Earl of Leicester, but did she conspire to murder his wife? She called herself the Virgin Queen, but how chaste was she through dozens of liaisons? She never married—was her choice to remain single tied to the chilling fate of her mother, Anne Boleyn? An enthralling epic that is also an amazingly intimate portrait, The Life of Elizabeth I is a mesmerizing, stunning reading experience.

In a Europe aflame with wars of religion and dynastic conflicts, Elizabeth I came to the throne of a realm encircled by menace. To the great Catholic powers of France and Spain, England was a heretic pariah state, a canker to be cut away for the health of the greater body of Christendom. Elizabeth's government, defending God's true Church of England and its leader, the queen, could stop at nothing to defend itself. Headed by the brilliant, enigmatic, and widely feared Sir Francis Walsingham, the Elizabethan state deployed every dark art: spies, double agents, cryptography, and torture. Delving deeply into sixteenth-century archives, Stephen Alford offers a groundbreaking, chillingly vivid depiction of Elizabethan espionage, literally recovering it from the shadows. In his company we follow Her Majesty's agents through the streets of London and Rome, and into the dank cells of the Tower. We see the world as they saw it-ever unsure who could be trusted or when the fatal knock on their own door might come. The Watchers is a riveting exploration of loyalty, faith, betrayal, and deception with the highest possible stakes, in a world poised between the Middle Ages and modernity.

Doran pens a biography of the powerful, successful, virtuous, and caring ruler of 16th century Britain, illustrated with portraits, rare documents, and letters in Elizabeth's own hand.

In her famous speech to rouse the English troops staking out Tilbury at the mouth of the Thames during the Spanish Armada's campaign, Queen Elizabeth I is said to have proclaimed, "I may have the body of a weak and feeble woman, but I have the heart and stomach of a king." Whether or not the transcription is accurate, the persistent attribution of this provocative statement to England's most studied and celebrated queen illustrates some of the contradictions and cultural anxieties that dominated the collective consciousness of England during a reign that lasted from 1558 until 1603. In The Heart and Stomach of a King, Carole Levin explores the myriad ways the unmarried, childless Elizabeth represented herself and the ways members of her court, foreign ambassadors, and subjects represented and responded to her as a public figure. In particular, Levin interrogates the gender constructions, role expectations, and beliefs about sexuality that influenced her public persona and the way she was perceived as a female Protestant ruler. With a new introduction that situates the book within the emerging genre of cultural biography, the second edition of The Heart and Stomach of a King offers insight into the continued fascination with Elizabeth I and her reign.
