its origins, and its aftermath, this volume by Barbara B. Diefendorf introduces students to the most notorious episode in France's sixteenth century civil and religious wars and an event of lasting historical importance. The murder of thousands of French Protestants by Catholics in August 1572 influenced not only the subsequent course of France's civil wars and state building, but also patterns of international alliance and long-standing cultural values across Europe. The book begins with an introduction that explores the political and religious context for the massacre and traces the course of the massacre and its aftermath. The featured documents offer a rich array of sources on the conflict — including royal edicts, popular songs, polemics, eyewitness accounts, memoirs, paintings, and engravings — to enable students to

Humanists and Reformers portrays in a single, expansive volume two great traditions in human history: the Italian Renaissance and the age of the Reformation. Bard Thompson provides a fascinating survey of these important historical periods under pressure of their own cultural, social, and spiritual experiences, exploring the bonds that held Humanists and Reformers together and the estrangements that drove them apart. In the section of the book devoted to the Italian Renaissance, an opening historiography is followed by accounts of the struggles that underlay the Renaissance, the Renaissance papacy and the rebuilding of Rome, the growth of capitalism, and the rise of the monarchies and the city states. Separate histories of Venice, Milan, and Florence are provided, with special attention given

It also extensively covers the Reformers and their thought: Luther, Zwingli, the Anabaptists and the left wing of the Reformation, Calvin, and the Counter-Reformation. The complex history of the Tudors to 1558 and the reign of Elizabeth I occupy the last large sections of the book.
