A step-by-step guide to the process of “scripting” your future and successfully manifesting what you want in life • Explores the science behind how the scripting method works and shares the vivid journal entries from the author’s big breakthrough--when he successfully used his method to land a lead role on a TV show • Details how the understanding of incredible new (and, until now, mostly unheard of) scientific discoveries and emerging technologies is the most important key to creating and manifesting in your life • Reveals fun, easy tools for manifesting and self-help, updated for a new generation In this step-by-step guide, filled with success stories and practical exercises, Royce Christyn details a simple “scripting” process for harnessing the Law of Attraction and manifesting what you want in your life--happiness, wealth, travel, love, health, the perfect career, or simply a productive day. The process is backed by science and experience, yet it feels like magic. And all you need is a pen and paper. Inspired by New Thought and Positive Thinking classics, Christyn explains how he developed his scripting method through 4 years of trial and error, keeping what worked and dropping what didn’t until he brought his success rate from 5% to nearly 100%. Sharing pages from his own journals, he outlines how to create the life you want with daily journaling exercises, beginning with a simple list-making practice to figure out your wants and intentions and then progressing to actual scripting of your future, whether the next 12 hours or the next 10 days. He shows how, over time, your scripts will increase in accuracy until they converge with reality. He shares the vivid entries from his big breakthrough--when he successfully used his method to land a lead

guest-starring role on Disney Channel's *Wizards of Waverly Place* with Selena Gomez. He explores how "feeling" your future success as you write your daily scripts helps attract your desired outcomes, and he shares the key phrases to include to make your script come true. The author also explores the science behind how the scripting method works, including a down-to-earth examination of quantum mechanics. From small dreams to lifelong goals, this book gives you the tools to put your thoughts into action and finally close the gap between where you are and where you want to be in your life.

Market_Desc: Programmers and Software Engineers wishing to broaden their experience of modern programming languages, Computer Science Students

Special Features: This is the first book to survey a variety of the most important scripting languages, illustrating their use in a wide variety of application domains. In addition, the text explores object architectures such as COM, OLE, and ActiveX and how they rely on scripting." Provides a broad survey of scripting languages and their applications." Languages include: Perl V, Tcl, Word Basic, Java Script, Visual Basic, and VB Script." Color insert illustrates a variety of interface styles.

About The Book: Scripting Languages have taken over from object-oriented languages as flavour of the decade, mainly because of the power and flexibility they provide (even for non-expert programmers) for developing graphical user
