Sociologists who study deviance and crime examine cultural norms, how they change over time, how they are enforced, and what happens to individuals and societies when norms are broken. Deviance and social norms vary among societies, communities, and times, and often sociologists are interested in why these differences exist and how these differences impact the individuals and groups in those areas.

Delinquency, criminal behaviour, especially that carried out by a juvenile. Depending on the nation of origin, a juvenile becomes an adult anywhere between the ages of 15 to 18, although the age is sometimes lowered for murder and other serious crimes. Delinquency implies conduct that does not conform to the legal or moral standards of society; it usually applies only to acts that, if performed by an adult, would be termed criminal.
